Stevens Branch

± 86 Acres | Edgefield County | South Carolina | Near Edgefield

young pine, big creek

PRICE \$339,858	PRICE / ACRE \$3,950	ACREAGE ± 86
---------------------------	--------------------------------	------------------------

PROPERTY OVERVIEW

Stevens Branch Tract is a great recreation and timberland property located in a quiet area of northern Edgefield County. The land lies south of Hwy 378 about eight miles north of Edgefield. About 80 acres are forested with loblolly pine planted in 2021 and now in their fifth growing season. These young trees are healthy and growing fast. The land is all wooded except for roads and trails. Topography in the planted pine area is gently rolling to nearly level. A small, rocky branch runs along the eastern property line and joins Turkey Creek as it makes the southern boundary. Turkey Creek is a large stream with a gravelly base and rock outcrops scattered along the creek bed. Some steeper slopes overlook the streams where hardwoods mixed with pine cover 4 to 5 acres. Soils are mostly silt loam or fine sandy loam and are productive for timber and other uses. Over much of the property, soils would be productive for larger fields and pastures if...

Description

Farmland classification identifies map units as prime farmland, farmland of statewide importance, farmland of local importance, or unique farmland. It identifies the location and extent of the soils that are best suited to food, feed, fiber, forage, and oilseed crops. NRCS policy and procedures on prime and unique farmlands are published in the "Federal Register," Vol. 43, No. 21, January 31, 1978.

Description

ENG - Engineering

Septic tank absorption fields are areas in which effluent from a septic tank is distributed into the soil through subsurface tiles or perforated pipe. Only that part of the soil between depths of 24 and 60 inches is evaluated. The ratings are based on the soil properties that affect absorption of the effluent, construction and maintenance of the system, and public health. Saturated hydraulic conductivity (Ksat), depth to a water table, ponding, depth to bedrock or a cemented pan, and flooding affect absorption of the effluent. Stones and boulders, ice, and bedrock or a cemented pan interfere with installation. Subsidence interferes with installation and maintenance. Excessive slope may cause lateral seepage and surfacing of the effluent in downslope areas.

Some soils are underlain by loose sand and gravel or fractured bedrock at a depth of less than 4 feet below the distribution lines. In these soils the absorption field may not adequately filter the effluent, particularly when the system is new. As a result, the ground water may become contaminated.

The ratings are both verbal and numerical. Rating class terms indicate the extent to which the soils are limited by all of the soil features that affect the specified use. "Not limited" indicates that the soil has features that are very favorable for the specified use. Good performance and very low maintenance can be expected. "Somewhat limited" indicates that the soil has features that are moderately favorable for the specified use. The limitations can be overcome or minimized by special planning, design, or installation. Fair performance and moderate maintenance can be expected. "Very limited" indicates that the soil has one or more features that are unfavorable for the specified use. The limitations generally cannot be overcome without major soil reclamation, special design, or expensive installation procedures. Poor performance and high maintenance can be expected.

Numerical ratings indicate the severity of individual limitations. The ratings are shown as decimal fractions ranging from 0.01 to 1.00. They indicate gradations between the point at which a soil feature has the greatest negative impact on the use (1.00) and the point at which the soil feature is not a limitation (0.00).

The map unit components listed for each map unit in the accompanying Summary by Map Unit table in Web Soil Survey or the Aggregation Report in Soil Data Viewer are determined by the aggregation method chosen. An aggregated rating class is shown for each map unit. The components listed for each map unit are only those that have the same rating class as listed for the map unit. The percent composition of each component in a particular map unit is presented to help the user better understand the percentage of each map unit that has the rating presented.

Other components with different ratings may be present in each map unit. The ratings for all components, regardless of the map unit aggregated rating, can be viewed by generating the equivalent report from the Soil Reports tab in Web Soil Survey or from the Soil Data Mart site. Onsite investigation may be needed to

validate these interpretations and to confirm the identity of the soil on a given site.

STATE OF SOUTH CAROLINA)
COUNTY OF EDGEFIELD) EASEMENT FOR ACCESS

KNOW ALL MEN BY THESE PRESENTS, THAT RONNIE GORDON a/k/a RONNIE J. GORDON, LEON GORDON, ROBERT D. GORDON, MILTON K. GORDON, ADDIE B. GORDON-MONROE, RENEE GORDON JOHNSON and JEANETTE GORDON, (hereinafter referred to as “GRANTORS”) for and in consideration of the sum of One Dollar (\$1.00) to us in hand paid, the receipt whereof is hereby acknowledged, do hereby grant and convey to **TSRP OF EDGEFIELD, LLC**, (hereinafter referred to as “GRANTEE”) its successors and/or assigns, a Perpetual Non-Exclusive Easement for the purpose of ingress and egress on, over and across the property of the grantees described herein, said easement appearing as “Old Woods Road” on that plat prepared by Todd Surveys Inc. dated February 24, 2003 and recorded in the Office of the Clerk of Court for Edgefield County in Judgment Roll 36233, said easement beginning on the Grantors’ tract where the “Pavement at end of Gordon Town Rd.” is shown near the southern boundary line of the grantors’ tract and running southerly until it intersects with the grantee’s northern boundary line.

Said easement being located on that property of the Grantors herein named,
having Edgefield County Tax Map Number 088-00-00-026-000 and described more fully

as follows:

All that certain piece, parcel or tract of land, situate, lying and being within the County of Edgefield, State of South Carolina, containing One Hundred Eighty-Six and Eighty Hundredths (186.80) acres, more or less, located on both sides of Highway S-19-325, bounded and described generally as follows: on the NORTH by lands of Willie Mae Simmons, Raymond Gordon, Sidney Gordon, Sloan Gordon, Alma Daniels, Cleora Gordon, Velma McManus, Milton E. Gordon and Ernest Gordon; on the EAST and SOUTHEAST by lands of International Paper Company; on the SOUTH by lands of Canal Industries and by lands of Miriam Rowland; and on the WEST by lands of Emily O. Timmerman.

Excluding therefrom, conveyances heretofore made by Willie Gordon to various family members as will more fully appear by reference to the public records for Edgefield County, South Carolina.

DERIVATION: This being a portion of that property conveyed to Franklin Gordon and D.P. Gordon by deed of Harold Gordon dated October 4, 1989 and recorded October 6, 1989 in the Office of the Clerk of Court for Edgefield County in Deed Book 123 at Page 158. Thereafter, Franklin Gordon and D.P. Gordon deeded said property to Franklin Gordon, D.P. Gordon, Marie G. Adams and Ronnie Gordon by deed dated July 3, 2004 and recorded September 1, 2004 in Record Book 944 at Page 185. Thereafter, Franklin Gordon conveyed his interest to Leon Gordon, Sr. by deed dated November 26, 2014 and recorded December 1, 2014 in Record Book 1501 at Page 153. Thereafter, Marie G. Adams died testate on December 12, 2017 devising her interest to Ronnie J. Gordon, said estate being found in the Probate Court for Edgefield County in File #2018-ES-19-00156 and further evidenced by that Deed of Distribution dated December 20, 2022 and recorded December 28, 2022 in the Office of the Clerk of Court for Edgefield County in Record Book 2016 at Page 319. Thereafter, an Order Determining Heirs dated December 19, 2024 was filed establishing Robert D. Gordon, Milton K. Gordon, Addie B. Gordon-Monroe, Renee Gordon Johnson and Jeanette Gordon as the heirs of D.P. Gordon who died intestate on April 17, 2010, said estate and order being found in the Probate Court for Edgefield County in File 2024-ES-19-00217 and further evidenced by that same Order recorded December 31, 2024 in the Office of the Clerk of Court for Edgefield County in Record Book 2170 at Page 302.

GRANTORS further acknowledge that it is their intent that the easement herein granted be an appurtenant easement and therefore, run with the servient estate, that being Tax Map Number 088-00-00-026-000, and the dominant estate, that being 088-00-00-024-000, said dominant estate currently held by the **GRANTEE** herein, and more fully described as follows:

All that certain piece, parcel or tract of land, with all improvements thereon, situate, lying and being in the County of Edgefield, State of South Carolina, containing eighty-six and four hundredths (86.04) acres, more or less, as will more fully appear by reference to a

plat thereof, prepared for H.S. Holmes dated February 24, 2003 by Todd Surveys, Inc. and being recorded in the Office of the Clerk of Court for Edgefield County in Judgment Roll 36233. Said plat is incorporated herein and made a part and parcel of this description by reference thereto. Reference is hereby made to said plat for a more complete and accurate description as to the metes, bounds and exact location of the subject property.

This being the identical property conveyed to TSRP of Edgefield, LLC by deed of Leon Gordon dated November 5, 2010 and recorded November 8, 2010 in the Office of the Clerk of Court for Edgefield County in Record Book 1307 at Page 119.

TO HAVE AND TO HOLD, all and singular, the said Easement hereinbefore granted, unto the said **TSRP OF EDGEFIELD, LLC**, its successors and/or assigns.
